

Mr. Behre has worked in the Directed Energy Field for over 25 years. His career at Naval Surface Warfare Center, Dahlgren Division covers efforts in laser lethality, beam control systems, prototype development, and portfolio management while he has transitioned over a dozen laser weapon prototypes to Navy and Marine Corp Warfighters. He has also detailed into various offices with the Office of the Secretary of War where he has developed Policy, managed technology maturation, prepared acquisition officials for directed energy systems and most recently established the Joint Directed Energy Test, Integration and Manufacturing Directorate in the Scaled Directed Energy Critical Technology Area (SCADE CTA). He has a Bachelor of Science in Electronic Engineering from Old Dominion University and Master of Science in Systems Engineering with a concentration in Directed Energy, from the Naval Postgraduate School.
