

SYSTEMS SYPOSIUM 2026

November 16-20, 2026 Monterey, California

Distinguished Speaker

Dr. Brian Hankla.

OUSW(R&E), Director, SCADE S&T (Acting)

Dr. Brian J. Hankla is the acting Director of Science and Technology for Scaled Directed Energy (SCADE) under OUSD(R&E), formerly the Joint Directed Energy Transition Office (JDETO). With over 30 years of leadership in directed energy and pulsed power, he has guided major Department of War R&D efforts including the High Energy Laser Scaling Initiative (HELSEI), Navy Railgun Pulsed Power, and the Navy Laser Weapon System (LaWS). Dr. Hankla holds a Ph.D. in Engineering from the University of Nebraska–Lincoln and is a proven leader working across government, academia, and industry to advance directed energy technologies and deliver innovative capabilities to the warfighter.
