

SYSTEMS SYMPOSIUM 2026

November 16-20, 2026 Monterey, California

Distinguished Speaker

Dr. Gerald Manke II

OUSW(R&E), Director, SCADE / Joint Laser Weapon System (JLWS)

Dr. Gerald Manke is the Director of the Joint Laser Weapon Systems technology sprint, which is the flagship Scaled Directed Energy (SCADE) prototype development program established by the Office of the Undersecretary of War for Research and Engineering. Prior to joining OUSW(RE), Dr. Manke served as a Technical Director with PEO IWS, leading technical and programmatic activities related to the development and acquisition of Directed Energy Weapons and Electro-Optic & Infrared Sensors for the surface Navy.
